Arcvane Visibility

AI-readiness report

clearlayeraccess.com
Scanned 4 November 2026, re-checked after fixes at 03:59 PKT · prepared by the Arcvane Labs team

REAL SCAN · OUR OWN WEBSITE

Can AI find, understand and use this website? Results from our free check and a recorded

1. Summary

FIND · DISCOVERY

Accessible

AI crawlers allowed · sitemap (36 pages) · llms.txt

UNDERSTAND · CONTENT

Extracted

12 priced offers readable · heading outline clear

USE · AGENT TASK

Completed

reached the free-test request form

AI ANSWERS

Premium

included in the full audit

What this means

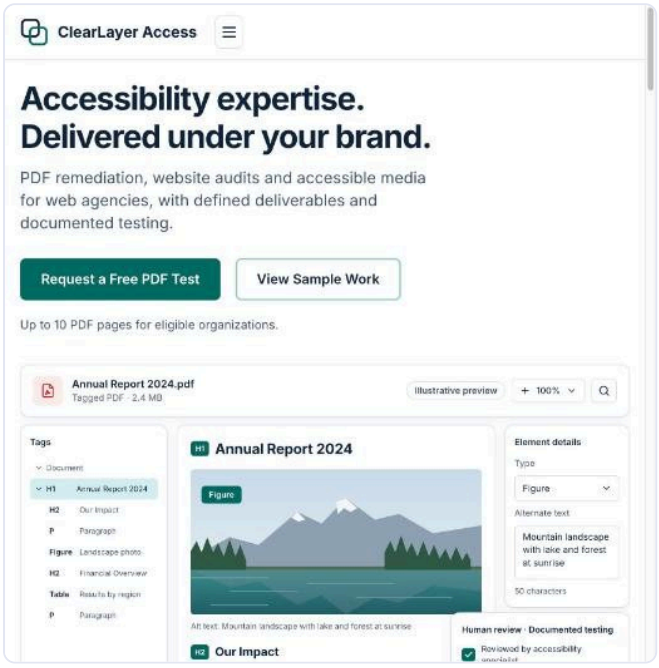

AI can reach the site and read its services, prices and the free test offer, and an agent completed the task. The two fixes found on the first run shipped the same morning and are re-checked on page 3.

Checks

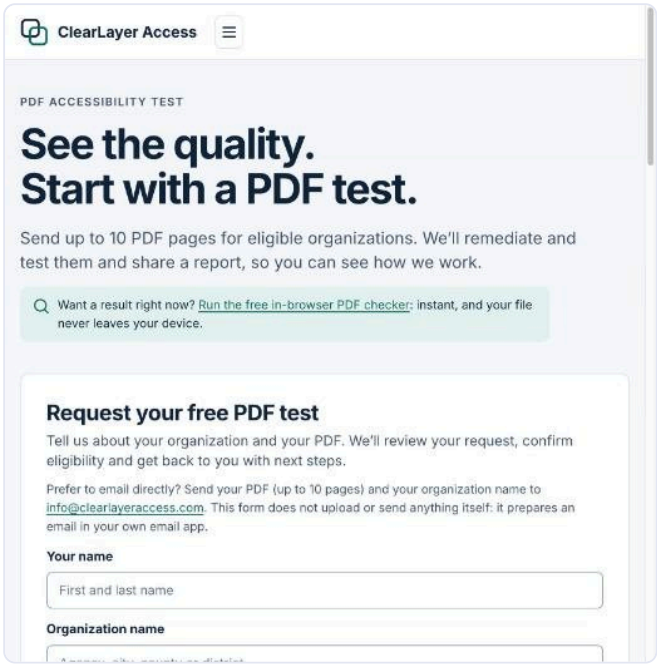

CHECK	RESULT	WHAT WE SAW
AI crawler rules	All allowed	None of 10 crawlers blocked
Indexing	Indexable	No noindex; canonical set
Structured data	1 block	Organization, ProfessionalService, OfferCatalog, Offer, Service, WebSite, FAQPage
Prices in data	12 offers	Audits $1,250 · Documents $6/page · Media $1.50/min, and more (/ and /pricing)
Prices as text	Readable	$1,250, $6, $12, $1.50, $9, $40
Headings	Fixed	25 headings, 1 h1, clear outline (before: h1 → h4 at “Tags”)
Buttons and links	All named	63 of 63 named
Task path	Found	“Contact”, “Request a Free PDF Test”, “Contact us for a quote”
Content without JavaScript	Readable	5,717 characters in the server HTML
Sitemap · llms.txt	Found	36 addresses; llms.txt present

2. Agent journey test

Task: find pricing and request a free sample. Recorded by an AI agent in a real Chrome browser; re-run after the fixes at 03:59 PKT. Nothing was submitted.

Step 1 · homepage

Step 3 · request form reached

1. Homepage loaded
2. Menu “Pricing” opened /pricing · starting prices as text
   `before the fix: no “Pricing” item in the menu`
3. “Request a Free PDF Test” opened the form · all 7 fields labelled
4. Submit: never attempted (safety rule)

3. Fix list · before and after

#	FIX	BEFORE → AFTER (4 NOV 2026, PKT)	STATUS
1	Make the hero mock-up’s “Tags” label plain text (or h2/h3), or hide the decorative mock-up from assistive tech	02:52 heading skip h1 → h4, 15 of 19 checks → 03:59 clear outline, 16 of 19 checks	Fixed

4. Standards and limits

Evidence for every finding. Each result comes from the live page on the date shown.
Human-reviewed. Findings and fixes are reviewed by the Arcvane Labs team.
Re-checked over time. After fixes, we check again the same way.
Trends, not guarantees. No mention, ranking, traffic or revenue is guaranteed.
Safe testing. The agent never submitted, booked or bought anything.
Optional files. No /.well-known/mcp.json was found. This is optional and never counted as a failure.
Scope. AI answer monitoring is part of the full audit and is not included in this report.
